

Delivery specifications

C5 Music Envelope 162 x 229 mm

Size: 162 x 229 mm

Download the document with the name '[Template Music Envelope C5 162x229mm.idml](#)' or '[Template Music Envelope C5 162x229mm.pdf](#)' for the format of the all-over printed 162x229mm envelope of MusicalGreetingCards.

- Create your design in the layer with the name 'Artwork'.
- There is also a layer with the name 'Gripper white - no printing'. Please make sure there will be no printing here, because of grabbing the envelope. So apply this layer when exporting to .pdf.
- Deliver as a high resolution pdf file (pdf/x-1a-2001).
- The pdf file to be supplied consists of 1 page and has size 360x325mm.
- Please add overfill and cutting marks.
- Possible photos at least 300 dpi.
- Converting text into outlines to eliminate fonts problems.
- Convert any Pantone colours to CMYK.
- **Please note:** If your design is finished and you export the file to pdf, please deactivate the layer named 'Embossing mould' so that the embossing lines of the envelope will not appear in the eventual pdf. Otherwise they would be printed as well. The layer named 'Glue zone - no printing' should be left on for some time. This will be beneficial to the gluing of the envelope.
